Percentages are rounded up to whole numbers in accordance with the generally applicable rounding rules.	
Proven oral and written English at least on B2 level.			
Basic knowledge of the principles of law in staturtory and common law countries.			
The course aims to present elementary issues of European insurance law. The lecture will bring students' attention to European law on insurance and the European Union's regulations in this sphere. Students will be introduced to European law standards of insurance market.			
Why is it worth taking advantage of insurance cover or what is the insurance risk and insurance interest? What the insurer has to do with the therapist, i.e. the analysis of requirements and needs and the distribution of insurance Who is who in the insurance market, i.e. about insurers and insurance intermediaries. Why are insurance products so complicated or about insurance relationships. Is it possible to get rich in insurance, i.e. property and personal insurance? Can or should you insure your interests, that is, for the justification of compulsory insurance How legislators supervise the security of the insured, i.e. insurance supervision and customer protection How does the cross-border system for the protection of road accident victims work?
